

## WALKING SAFARI BOTSWANA

4 days / 3 nights Walking Safari, Linyanti, Chobe Enclave

This is a mobile tented camping safari experience focused on walking within a private concession in the Chobe Enclave bordering the Linyanti swamp. Distance walked each day will vary depending on the capabilities of the guests and what their interests are, with many stops for water, picnic breakfasts, lunches and many interesting sightings along the way. Each day the camp may move, dependent on wildlife movements.

This is an adventure safari for those that seek to explore the wild and remote wilderness area on foot. Close-up, safe encounters on foot of elephant, buffalo and lion are not uncommon in the hands of good professional guides whose first passion is to interpret and bring to life every aspect of the bush. Accommodation is in stand-in spacious meru style tents, comfortable beds and en-suite private bathroom facilities.

The Linyanti area is best known for its large populations of elephant, buffalo and variety of antelope that congregate in vast numbers, especially during the dry season. Lion, sable, roan, leopard and wild dog can also be encountered during the walks at Linyanti. The rare and elusive sitatunga antelope, red lechwe, hippo and crocodile can be found in the surrounding marshes.

Children are accepted from the age of 10 and pay full rates.  
This safari operates from June 1st to 31st of October.

Note: We recommend you bring spare batteries for cameras and other electrical appliances as there will be limited access to power while camping. We also recommend guests to bring a bright but light torch to walk around the camp after dark.
